

# ACM Monthly Admissions Report

## Admissions

**Author**            Kimberly Albrecht  
                          Ext. 2197

### Description

This report counts the unique number of applicants in specially defined groupings of application statuses. Designed to satisfy reporting to the ACM.

### Parameters

<i>Session</i>	Desired APPL.START.TERM of the APPLICATIONS
<i>As of Date</i>	Will pull all APPLICATIONS as of specified date with specified APPL.STATUS as defined by the Row Groups section.
<i>Citizenship</i>	Selects based on the PERSON.CITIZENSHIP of the applicant. Uses M57_CITIZENSHIP view where PERSON.CITIZENSHIP=null is D(omestic) and everything else is I(nternational).
<i>Admit Status</i>	APPL.ADMIT.STATUS of the APPLICATION

### Column Groups

<i>[Session]</i>	Current session plus two previous sessions.
------------------	---

### Columns

<i>[APPL.ADMIT.STATUS]</i>	Count by selected APPL.ADMIT.STATUS
<i>Total</i>	Total of all APPL.ADMIT.STATUS counts

### Row Groups

<i>APPLICATION RECEIVED (GROSS)</i>	APPL.STATUS is not equal to LEAD, INQUI or CINQ
<i>APPLICATION ACCEPTED (GROSS)</i>	APPL.STATUS is equal to ACCEP, CACC, PAID, MS or CPAID
<i>DEPOSITS PAID</i>	APPL.STATUS is equal to MS or PAID

### Additional Notes

Note to programmers: M57\_ADM\_APPL\_STATUSES is used to combine the PAID and MS statuses under PAID (eg. PAID = MS + PAID)
