Why Multimedia is Important

- Most 17-20 year-olds lack multimedia skills
 - These skills are vital for many majors:
 - Communication
 - Business
 - Public Relations
 - Art
- Our training program can also easily be adapted to apply to professionals.

History of AV Geeks

- ◎ Began in 2000
 - “with the main goal of **educating people of the important role of AV that is playing in our rapidly progressing technical world** and the skills that are needed to understand, and use these things in a professional and private life”

The Benefits of our Program

- ◎ Learn basic fundamental AV and presentation skills before entering college
 - Spend college focusing on advanced learning.
- ◎ Allows trainees to apply skills to different forms of scenarios

Focus of Training Program

◎ Main Goal

- to teach proper use of multimedia and visual aid

◎ Main Focus

- 1. PowerPoint
- 2. Video
- 3. Audio
- 4. Props

Why Choose AV Geeks???

- ⦿ Well planned out week long program
 - Covers all the basics of AV in presentations
- ⦿ Availability to Clients
- ⦿ Colleges and universities will all want to buy
 - They will quickly make money back through our program
 - “We are selling tools our clients will use in the future.”
