**Course Description:**

This course examines Greek and Latin word elements in a variety of medical language contexts. It also considers ways to use technical dictionaries in order to understand and use medical terminology and the Greek and Latin roots on which it is based. The course enables students to become more conscious of words and their history, to increase their English vocabulary through their study of how words are formed, to practice using a dictionary effectively, and to practice writing, pronouncing, and recognizing medical terminology.

**Academic Honesty:**

Students in this course are encouraged to do their homework together together (identical work which is submitted should be acknowledged).. All other classwork, especially quizzes and exams, must be the student's own work. Plagiarism, i.e., copying someone else's work without giving credit, is to be avoided. Such copying--from a book, another classmate's paper, or any other source--is dishonest.

At Monmouth College we view academic dishonesty as a threat to the integrity and intellectual mission of our institution. Any breach of the academic honesty policy – either intentionally or unintentionally - will be taken seriously and may result not only in failure in the course, but in suspension or expulsion from the college. It is each student's responsibility to read, understand and comply with the general academic honesty policy at Monmouth College, as defined in the Scots Guide (<http://department.monm.edu/stuserv/student-handbook/academic.htm>) and to the specific guidelines for each course, as elaborated on the professor's syllabus.

The following areas are examples of violations of the academic honesty policy:

1. Cheating on tests, labs, etc;
2. Plagiarism, i.e., using the words, ideas, writing, or work of another without giving appropriate credit;
3. Improper collaboration between students, i.e., not doing one's own work on outside assignments unspecified as group projects by the instructor;
4. Submitting work previously submitted in another course, without previous authorization by the instructor.
